DOWNFORCE NAKED FRONTAL SPOILER

REF.21594

AERODYNAMIC TEST

TRIUMPH STREET TRIPLE 765 R/RS

2023 -

TRIUMPH SPEED TRIPLE 1200 RS

2021 -

SPOILER'S DOWNFORCE

Downforce-Speed Chart:

On this chart we can see the downforce that the spoilers generate.

DRAG FORCE

Drag force - Speed Chart:

On this chart we can see the force that our bike has to overcome to advance depending on the speed we are travelling at. As we can observe this force is practically the same with the *Puig* Downforce Naked Frontal Spoiler. So we will gain downforce without affecting bike speed.

WITHOUT SPOILER **PUIG SPOILER**

Due to its angles and frontal surface, it creates an overpressure on the top of the spoiler. The turbulence create below, generates a difference of pressure between the upper and lower part of the spoiler. Which ultimately generates the aerodynamic downforce.
