

RI300GS KIT
PISTA
BY PUIG

THE BODY-KIT

Unlike the latest design projects like the Diablo and DiabloX, the aim for this Pista was to develop a Body Kit for products that can be sold, mounted and used for the R1300GS on the street or track with only a few adjustments.

THE STREET KIT

for those who want to use the Pista on streets we developed this special parts consisting on:

✘ LICENSE PLATE SUPPORT

4mm thick ABS cover + License plate support
you can mount the OEM turn signals on it

✘ TURN SIGNALS DISPLACER

This bracket allows you to remove the OEM handguards & the turn signals on them, by installing this turn signals on a new position on the sides of the bike.

For bikes with rear ACC simply maintain the OEM license plate and cover, without mounting the Puig ones
